The Conference will be held in Gdansk, Poland, on 1<sup>st</sup> till 6<sup>th</sup> September 2007 [1]. The Conference's aim is to provide an opportunity for the meeting of scientists and technologists working on novel functional and nanostructured materials.

The conference programme will cover experimental investigations, theory and modelling of:

- Photonic and optoelectronic materials,
- Magnetic materials [2],
- Catalytic materials,
- Nanoparticle materials,
- Thin and thick films,
- Organic, hybrid and composite materials,
- Micro/Nano Electro Mechanical Systems (MEMS/NEMS): technology and applications,
- Physics and technology of nanostructured semiconductors and superconductors [3],
- Physics and technology of carbon nanotubes and carbon-based materials,
- Industrial applications of nanotechnology.
